## Cuba Cites CIA in Assassination Plot

HAVANA — Cuba accused the CIA of fabricating evidence in order to link Havana with the assassination of President John F. Kennedy and thus justify further American efforts to overthrow the Castro government.

Eusebio Azcue Lopez, a former Cuban consul in Mexico City, said the person claiming to be Lee Harvey Oswald who visited him Sept. 27, 1963, to request a visa for Cuba was not the same person who appeared in films and photographs as the arrested assassin of Kennedy.
